

WEEKLY BUSINESS SESSION – January 27, 2016

9:00 a.m. – Anne G. Basker Auditorium
600 N.W. Sixth Street, Grants Pass, OR 97526

Present: Cheryl Walker, Chair; Keith Heck, Vice-Chair; and Simon Hare, Commissioner; Wendy Watkins, Recorder

These are meeting minutes only. Only text enclosed in quotation marks reports a speaker's exact words.

Pursuant to notice through the media and in conformance with the Public Meeting Law, Cheryl Walker, Chair, called the meeting to order at 9:00 a.m.

Items discussed were as follows:

1. PROCLAMATION:

- a. In the Matter of Proclaiming the Month of January 2016 as Child Trafficking Awareness Month** *(One original Proclamation filed with the County Clerk)*

Commissioner Heck read and presented the Proclamation to Steve Raycraft and Jannell Baun. Mr. Raycraft thanked the Board and revealed this is the 4th year they have recognized the issue to combat modern day slavery. He announced on Friday, February 5th at Rogue Roasters guest speaker Rebecca Bender will be there to speak about how she was sex trafficked out of Eugene and sold for six years and hear her remarkable story of survival.

2. REQUESTS/COMMENTS FROM CITIZENS: *(Each person will be given three (3) minutes to speak)*

David Everist, Josephine County, spoke about his mining claim and submitted Plan of Operation (**Exhibit A**).

Dale Matthews, Grants Pass, spoke about his dissatisfaction with a tax levy.

Judy Ahrens, Josephine County, spoke about her disappointment with what happened in Harney County.

Linda Bradley, Grants Pass, spoke about her disappointment with what happened in Burns, Oregon.

Vivian Kirkpatrick-Pilger, Grants Pass, spoke about her disappointment with what happened in Burns, Oregon.

Larry Ford, Grants Pass, announced two upcoming events and submitted (**Exhibit B**).

Ray Smith, Cave Junction, spoke about House Bill 3453.

Sandi Cassanelli, Merlin, read and submitted Weekly Business Session – January 27, 2016 (**Exhibit C**).

Lisa Childs, Grants Pass, spoke about chipping organic matter rather than burning it.

Brad Converse, Grants Pass, said he would like clarification on Ordinance 92-27, Section 7 regarding item “e” on the agenda.

Kathy Svendsen, Grants Pass, asked the public what they would propose since they are not in favor of a tax levy.

3. APPROVAL OF CONSENT CALENDAR:

- a. Minutes** *(Draft minutes are available for viewing in the Board's Office)*

County Administration Workshop – January 7, 2016

Executive Session (Open Session) – January 11, 2016

General Discussion – January 12, 2016

Executive Session (Open Session) – January 13, 2016

Weekly Business Session – January 13, 2016

County Administration Workshop – January 14, 2016

- b. Donation Permanent Easement/Temporary Easement – County Property at 102 S. Redwood Highway, Cave Junction** *(One original Easement returned to Legal Counsel)*

- c. Resolution No. 2016-010; In the Matter of a Reappointment to the Josephine County Board of Health** *(One original Resolution filed with the County Clerk)*

Board Discussion and Action:

Commissioner Hare made a motion to approve the Consent Calendar Agenda Items 3(a) through 3(c) as listed, seconded by Commissioner Heck. Upon roll call vote, motion passed 3-0; Commissioner Hare – yes, Commissioner Heck – yes, and Commissioner Walker – yes.

- 4. OTHER: (ORS 192.640(1))** “. . . notice shall include a list of the principal subjects anticipated to be considered at the meeting, but this requirement shall not limit the ability of a governing body to consider additional subjects.”)

Commissioner Hare mentioned a need to ratify a decision that was made by the Board yesterday to award ROBCO, Inc. a contract, not to exceed \$50,000, for removal of a significant amount of slide on Galice Road. ROBCO, Inc. has started work this morning and plans to have the road open by Friday.

Commissioner Hare made a motion to ratify the approval of slide removal on Galice Road and awarding the contract to ROBCO, Inc. for the terms therein and not to exceed \$50,000, seconded by Commissioner Heck. Upon roll call vote, motion passed 3-0; Commissioner Hare – yes, Commissioner Heck – yes and Commissioner Walker – yes.

5. MATTERS FROM COMMISSIONERS:

Commissioner Hare regarded today as a very solemn day and was concerned about tensions mounting across the County where there is federally controlled land. He referenced Wildlife Images that has been in the process of renewing their lease with BLM for approaching 10 years due to their property being half on private land and half on BLM land.

Commissioner Heck presented America's View of Government slide (**Exhibit D**) referencing a visual graphic of how we are losing the confidence in the political core, but yet we all acknowledge that we have no other solution than the political core.

Commissioner Walker encouraged citizens to not believe everything they read on social media and they should do their research.

Weekly Business Session was adjourned at 10:13 a.m.

Wendy Watkins, Recorder

PLAN OF OPERATIONS FOR MINING ACTIVITIES ON NATIONAL FOREST SYSTEM LANDS

For internet
For form. 

FS-2800-5 (Rev. 3/08)
OMB 0596-0022

USE OF THIS FORM IS OPTIONAL! 1st TIME USERS SHOULD DIRECT QUESTIONS REGARDING THIS FORM OR REGULATIONS (36 CFR 228A) TO THE FOREST SERVICE DISTRICT OFFICE NEAREST YOUR AREA OF INTEREST.

Submitted by: David D Everist Miner (Q) LAW
Signature Title Date (mm/dd/yy)

Signature Title Date (mm/dd/yy)

Plan Received by: _____
Signature Title Date (mm/dd/yy)

I. GENERAL INFORMATION

- A. Name of Mine/Project: TWIN CEDAR Mining District
- B. Type of Operation: mining, Placer and or Hard rock or Pockets
(lode, placer, mill, exploration, development, production, other) mill
- C. Is this a (new / continuing) operation? (check one).
If continuing a previous operation, this plan (replaces / modifies / supplements) a previous plan of operations. (check one)
- D. Proposed start-up date (mm/dd/yy) of operation: 4-1-2016
- E. Expected total duration of this operation: minimum of 500 years or Everist
other page
- F. If seasonal, expected date (mm/dd/yy) of annual reclamation/stabilization close out: years Round operation
- G. Expected date (mm/dd/yy) for completion of all required reclamation: _____

II. PRINCIPALS

- A. Name, address and phone number of operator: David D Everist (541-531-7273)
LG myReg work #541-317-9673
- B. Name, address, and phone number of authorized field representative (if other than the operator).
Attach authorization to act on behalf of operator. 541-531-7273
~~LG myReg 541~~ David D Everist
- C. Name, address and phone number of owners of the claims (if different than the operator):

20 access of water feet

D. Name, address and phone number of any other lessees, assigns, agents, etc., and briefly describe their involvement with the operation, if applicable:

III. PROPERTY OR AREA

(Name of claim, if applicable, and the legal land description where the operation will be located.)

MC#	Name	Section	Township	Range
160574	TWIA Cedar Mining District	13	40 SRW	5R West

IV. DESCRIPTION OF THE OPERATION

A. Access. Show on a map (USGS quadrangle map or a National Forest map, for example) the claim boundaries, if applicable, and all access needs such as roads and trails, on and off the claim. Specify which Forest Service roads will be used, where maintenance or reconstruction is proposed, and where new construction is necessary. [For new construction, include construction specifications such as widths, grades, etc., location and size of culverts, describe maintenance plans, and the type and size of vehicles and equipment that will use the access routes.]

B. Map, Sketch or Drawing. Show location and layout of the area of operation. Identify any streams, creeks or springs if known. Show the size and kind of all surface disturbances such as trenches, pits, settling ponds, stream channels and run-off diversions, waste dumps, drill pads, timber disposal or clearance, etc. Include sizes, capacities, acreage, amounts, locations, materials involved, etc.

M. Davis provided some initial sketches.

- On sketch/drawing - show entire site
- show location of access road/improvement(s)
- drainage
- widths
- thoroughly describe what construction is

needed to build access road

(If more space is needed to fill out a block of information, use additional sheets and attach form)

C. Project Description [Describe all aspects of the operation] including mining, milling, and exploration methods, materials, equipment, workforce, construction and operation schedule, power requirements, how clearing will be accomplished, topsoil stockpile, waste rock placement, tailings disposal, proposed number of drillholes and depth, depth of proposed suction dredging, and how gravels will be replaced, etc. Calculate production rates of ore. [Include justification and calculations for settling pond capacities, and the size of runoff diversion channels.]

1. Address All aspects of this narrative
2. Show location(s) of sluice
3. locations of material processing
4. locations of waste rock/dump
5. All equipment planned
6. schedule for construction and operations
7. clearing/grubbing methods, locations, equipment
8. Topsoil-grubbing, clearing, storage
9. Waste rock placement
10. Tailings disposal

D. Equipment and Vehicles. Describe that which is proposed for use in your operation (Examples: drill, dozer, wash plant, mill, etc.). Include: sizes, capacity, frequency of use, etc.

* Address All aspects of question - list All equipment planned for use on site

11. Production rates
12. Detail on settling ponds, infiltration ponds, locations, size, capacity etc.

E. Structures. Include information about fixed or portable structures or facilities planned for the operation. Show locations on the map. Include such things as living quarters, storage sheds, mill buildings, thickener tanks, fuel storage, powder magazines, pipelines, water diversions, trailers, sanitation facilities including sewage disposal, etc. Include engineering design and geotechnical information for project facilities, justification and calculations for sizing of tanks, pipelines and water diversions, etc.

Do you see a need for any structures? Under this proposal, it doesn't appear that structures might be necessary. Bear this in mind since it could possibly affect the evaluation and approval process.

V. ENVIRONMENTAL PROTECTION MEASURES (SEE 36 CFR 228.8)

A. Air Quality. Describe measures proposed to minimize impacts on air quality such as obtaining a burning permit for slash disposal or dust abatement on roads.

Dust
Smoke
chemicals if applicable

NA

(If more space is needed to fill out a block of information, use additional sheets and attach form)

- E. **Fish and Wildlife.** Describe measures to maintain and protect fisheries and wildlife, and their habitat (includes threatened, endangered, and sensitive species) affected by the operations.

Check with State of Oregon and FS on any fish / wildlife designations or concerns / considerations regarding habitat or known species of concern

- F. **Cultural Resources.** Describe measures for protecting known historic and archeological values, or new sites in the project area.

If any known, then describe. If not known, recommend including language stating that FS would be notified if observed.

- G. **Hazardous Substances.**

1. Identify the type and volume of all hazardous materials and toxic substances which will be used or generated in the operations including cyanide, solvents, petroleum products, mill, process and laboratory reagents.

Include petroleum products needed for operations

2. For each material or substance, describe the methods, volume, and frequency of transport (include type of containers and vehicles), procedures for use of materials or substances, methods, volume, and containers for disposal of materials and substances, security (fencing), identification (signing/labeling), or other special operations requirements necessary to conduct the proposed operations.

... including petroleum products

3. Describe the measures to be taken for release of a reportable quantity of a hazardous material or the release of a toxic substance. This includes plans for spill prevention, containment, notification, and cleanup.

... including petroleum products

(If more space is needed to fill out a block of information, use additional sheets and attach form)

Phase 1

Motor Home is self contents

Wide roads into my claims
That is already there clean up road
Clear space for trailer of office
and motor home for office
and living space cut down dead
trees that are dead as require by
Occupation safety administration
other know as OSA for safety of

me and my partners and the public
to include and install portable Sump Box
and under water Sucker Device
also know as under water
vacuum cleaner to move in
various places

Phase 2 Portables

Install wash plant
There will be pump trucks
Back HO Bobcat loader
and this setup on twin
cylinder and on other possible
locations Filings need to tested
screen from view Leave ~~the~~ vegetation
I be going by 1872, 1870, 1866 mining
laws and 1909 ORS Water Laws

This for USFS and BLM
to put up fences and gates
for safety for public and
security for my minerals
deposits of great value
and security cameras and
security sensors This would
be at the USFS to pay for
theses and USFS and BLM to
sign from each Department
LEO to work at my direction
to uphold mining laws
and USFS and BLM provide me
Geologist and require the
District Ranger agent for USFS
to coordinate valuable minerals
deposits and the BLM and
mining District appoint Trustee
to valuable minerals deposits
to defend Grantee and the
grant for miner to perfect his or
her claim The Trustee to
grant validate his or her claim
for lode title without any
EM CUMCES to get Patent

I will be Busu Trasu in wood
and I will be putting stove
Food garden so me my
Partners can eat good food
Organic gardening and have
wild flowers would nice plant round
~~USFS~~ USFS could provide seed
and some trees for Replant
But need to clear dead trees
for safety and trees in the way
for I ~~will~~ will be use for
mining propose and in wood
stoves for heat from cold
so USFS need provide a
Budget for USFS Duties to
The management of land

AND When Trustee is appointed
to valuable minerals deposits
grant needs Budget to perform duties
of The Grant and Grantee by
Trustee on behalf of grantee
no fish The fuel will be
Propane Gasoline and Diesel
and lube Equipment I have tanks
in my Ford 250 ~~EX~~ XLT power Diesel
Propane is in motor Home some
~~Portable~~ Portable Tanks Electrical
~~Generator~~ Generator

H. **Reclamation.** Describe the annual and final reclamation standards based on the anticipated schedule for construction, operations, and project closure. Include such items as the removal of structures and facilities including bridges and culverts, a revegetation plan, permanent containment of mine tailings, waste, or sludges which pose a threat of a release into the environment, closing ponds and eliminating standing water, a final surface shaping plan, and post operations monitoring and maintenance plans.

* It is a good idea to describe final site configuration while building your proposed operating plan. Includes grading, stream rehabilitation, topsoil replacement, replanting, seeding etc. for complete site rehabilitation

VI. FOREST SERVICE EVALUATION OF PLAN OF OPERATIONS

A. Required changes/modifications/special mitigation for plan of operations:

B. **Bond.** Reclamation of all disturbances connected with this plan of operations is covered by Reclamation Performance Bond No. _____, dated (mm/dd/yy) _____, signed by _____ (Principal) and _____ (Surety), for the penal sum of _____. This Reclamation Performance Bond is a guarantee of faithful performance with the terms and conditions listed below, and with the reclamation requirements agreed upon in the plan of operations. This Reclamation Performance Bond also extends to and includes any unauthorized activities conducted in connection with this operation.

The bond amount for this Reclamation Performance Bond was based on a bond calculation worksheet. The bond amount may be adjusted during the term of this proposed plan of operations in response to changes in the operations or to changes in the economy. Both the Reclamation Performance Bond and the bond calculation worksheet are attached to and made part of this plan of operations. Acceptable bond securities (subject to change) include:

1. *Negotiable Treasury bills and notes which are unconditionally guaranteed as to both principle and interest in an amount equal at their par value to the penal sum of the bond; or*
2. *Certified or cashier's check, bank draft, Post Office money order, cash, assigned certificate of deposit, assigned savings account, blanket bond, or an irrevocable letter of credit equal to the penal sum of the bond.*

(If more space is needed to fill out a block of information, use additional sheets and attach form)

B. **Water Quality.** State how applicable state and federal water quality standards will be met. Describe measures or management practices to be used to minimize water quality impacts and meet applicable standards.

- * 1. State whether water is to be used in the operation, and describe the quantity, source, methods and design of diversions, storage, use, disposal, and treatment facilities. Include assumptions for sizing water conveyance or storage facilities.
- * 2. Describe methods to control erosion and surface water runoff from all disturbed areas, including waste and tailings dumps.
- * 3. Describe proposed surface water and groundwater quality monitoring, if required, to demonstrate compliance with federal or state water quality standards.
- * 4. Describe the measures to be used to minimize potential water quality impacts during seasonal closures, or for a temporary cessation of operations.
- * 5. If land application is proposed for waste water disposal, the location and operation of the land application system must be described. Also describe how vegetation, soil, and surface and groundwater quality will be protected if land application is used.

* This section is required - Specifically address all 5 aspects as listed

- stream use
- how much water needed for use?
- how obtained?

Look into any state of Oregon water requirements or permits for stream use
- Sturgis Fork - no coho < other ESA? >

C. **Solid Wastes.** Describe the quantity and the physical and chemical characteristics of solid waste produced by the operation. Describe how the wastes will be disposed of including location and design of facilities, or treated so as to minimize adverse impacts.

solid wastes include trash, garbage, human waste, petroleum containers -
anything that might be considered waste, discard or trash

D. **Scenic Values.** Describe protection of scenic values such as screening, slash disposal, or timely reclamation.

Screened from view by existing vegetation?

Phrase 3

To INSTALL Portal, Rock
crusher and Ball mill and
smelter refining and to TEST
other possible claim filings
These will be 10000 TONS or less
per claim This be as we will
waste Rock or sand will be
use for Roads to maintain
and Back fill and to make
Top Soil to sell and also
To Have school for training
miners for Best practices
and safety as we will need
of training futures miners
there we need storage sheds
and shelters for weather
and to have well train work
force and train in mining
law and law of the grant
and trust This plan will for
small point trustee to valuable
minerals deposits by USPI
BLM and mining districts
and have class rooms to train a
work force

WEEKLY BUSINESS SESSION – January 27, 2016

Last week during the Commissioners' protected time when no public response was allowed, this Board mentioned me by name, out of the blue, with no readily apparent context other than to impugn my character.

Keith Heck said: "There's a popular hue and cry about popular vote, popular vote, popular vote. Let's remind ourselves that Sandi Cassanelli was recalled by about a 73% popular vote.

So we'll get over that hurdle first before we start listening to other issues. That was a popular vote that was a rather resounding recall from the position of, ah, County Commissioner."

Simon Hare chimed in: "It was 71%, but, at this, you know, the margin of error."

It's amazing how much Commissioners Heck and Hare remembered about that recall. But they conveniently forgot the most important thing about it, namely that it was totally illegal. Don't they remember how our former County Clerk, Art Harvey, conveniently looked the other way when multiple laws were violated in order to push it through to the ballot? Have they forgotten that it somehow didn't matter that each and every petition sheet lacked the signature of the Chief Petitioner to make them lawful? I guess Commissioners Heck and Hare just conveniently forgot to mention those little facts about the recall.

So maybe we'll get over that hurdle first, before I start speaking of my second issue.

On the Agenda for today, an interesting addition is included at the bottom of the page. We noticed that the last item states that the presiding officer can refuse to recognize anyone who is campaigning for public office. What's up with that? I looked up Ordinance 92-27, Section 7, and it says absolutely nothing about campaigning.

Did this Board simply decide to change the Ordinance without Public Notice or any Public Process? No, couldn't be. That would be downright deceitful.

For decades, we have always campaigned right here in the Anne Basker. It's a fabulous way for the public to hear and learn about the views of each candidate. Campaigning in here is only banned by law after the ballots have been sent out for an election. That's because this building is within 100' of a ballot box.

Could this new fake campaigning rule be because Commissioners Walker and Heck are running for re-election and they want to eliminate any competition? No, couldn't be. That would be extremely self-serving and un-American.

Submitted for the record by Sandi Cassanelli
