

PUBLIC HEARING
IN THE MATTER OF A REQUEST BY OWNER OF A DOG OR DOGS
IMPOUNDED UNDER THE AUTHORITY OF ORS 609.155, FOR WOUNDING,
INJURING, KILLING, OR CHASING LIVESTOCK

April 6, 2016, 3:00 p.m.
Board Conference Room
500 N.W. Sixth Street, Grants Pass, OR 97526

Present: Cheryl Walker, Chair, Keith Heck, Vice Chair & Simon Hare,
Commissioner
County Legal Counsel: Wally Hicks, County Legal Counsel
Owner of Impounded Dog: Mark Minton
Owners of Livestock: Gwen Luthy (not available)
County Animal Control Officers: David Pitts
Recorder: Wendy Watkins

These are meeting minutes only. Only text enclosed in quotation marks reports a speaker's exact words. For complete contents of the proceeding, please refer to the audio recording.

Pursuant to notice through the media and in conformance with the Public Meeting Law, Cheryl Walker, Chair called the meeting to order at 3:00 p.m.

Commissioner Hare read a memo casting his vote regarding ORS 609.155 (**Exhibit A**) and excused himself from the hearing.

Commissioner Walker asked David Pitts, Animal Control Officer, to explain the events that led to the hearing.

TESTIMONY: COUNTY ANIMAL CONTROL OFFICER

Officer Pitts explained he was dispatched to 1567 Speaker Road in Wolf Creek to what appeared to be a dog attack and described the scene in which he saw a deceased 3-week-old, 20-pound lamb and an Ewe shaking profusely with deep punctures to her throat, ears, face and still bleeding. Officer Pitts noticed dozens of paw prints in the soft mud and followed the dog tracks through the pens, into the pasture and along the fence by the road to a pasture gate along Speaker Road. Officer Pitts asked to take the lamb as evidence and once the dog was impounded and sedated, we were able to get canine and paw impressions. Veterinarian Gary Buckmaster did the evaluation of the lamb and noted there was minimal surface lesions but upon skinning the animal there were severe underlying tissue damage with severe damage to the loins and abdominal wall and stated the 5 to 6 cm skin punctures are consistent with the 5 to 6 cm canine spread of a 2-year-old Rottweiler.

TESTIMONY: OWNER OF IMPOUNDED DOG

Mark Minton, Dog Owner, mentioned his two-year-old Rottweiler usually stays inside the house because he outgrew the fence and on this day, the dog was chained up outside and managed to slip out of his collar and got loose. Mr. Minton said he did pay Ms. Luthy \$450 to compensate for the lamb that was killed (**Exhibit B**) and bought a 10x10 kennel for his dog to stay in while he is at work (**Exhibit C**).

Lori Peck, Sleepy Hallow Loop in Grants Pass, testified that the 2-year-old Rottweiler is the nicest dog, is not aggressive at all and has no problem with the dog being around her grandchildren saying the dog licks and plays with them and has never shown any signs of aggression.

Commissioner Walker asked Officer Pitts how the dog was doing at the Animal Shelter and Officer Pitts said he is friendly and welcoming to everyone except him, when Officer Pitts walks by he growls and snarls at him.

BOARD DETERMINATION FINDINGS: FEES, PENALTIES, AND DISPOSITION OF DOG

The Board discussed the disposition of the dog, possible penalties to be assessed and agreed on the following conditions:

- \$285 Shelter Fee.
- \$325 Veterinarian Fee.
- \$500 Penalty for the dog getting loose and killing livestock.
- \$20 License Fee.
- Dog Neutered by May 6, 2016 and provide a certificate to the Animal Shelter.
- Animal Control to come out and check the new fence.

The Public Hearing adjourned at 3:43 p.m.

Wendy Watkins, Recorder

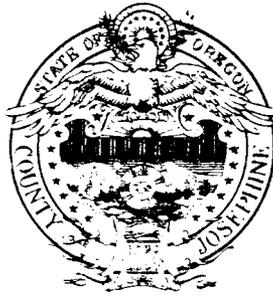

Entered into record:

Josephine County Board of Commissioners
Simon Hare, Commissioner

April 6, 2016

To: Josephine County Board of Commissioners

RE: Public Hearing in the Matter of: A Request by the owner of a dog or dogs impounded under the authority of ORS 609.155, for wounding, injuring, killing, or chasing livestock

The purpose of this memo is to provide my position on any and all requests by an owner of a dog or dogs impounded under the authority of ORS 609.155 for wounding, injuring, killing, or chasing livestock. If a preponderance of evidence exists that a dog did indeed cause any of the previously described stresses to livestock, the dog(s) should be put down immediately.

Rehabilitation is not an option. There may be evidence to suggest that rehabilitation is possible, but the responsibility of allowing for that margin of error lies with the Board of Commissioners. There is only one way to guarantee no possible margin of error... the animal is put down. I won't put the county at possible liability by allowing an animal that we have reason to believe has a propensity to cause harm to get the opportunity to cause that harm again in the future.

It is important to note that my decision to put down a dog for cause of wounding, injuring, killing or chasing livestock is not to be construed as punishment for the actions of the dog. The only person responsible for the actions of any dog is of the owner.

This decision is not appealable and is standing for all future hearings concerning this issue.

Sincerely,

Simon Hare
Josephine County Commissioner

NOTICE OF IMPOUNDMENT NOTICE OF RIGHT TO A HEARING

Josephine County Animal Control
Josephine County Public Health Department

NAME: MARK MINTON

ADDRESS: 1325 SPEAKER ROAD, WOLF CREEK, OR 97497

This is to notify you that 1 dog(s) under your possession or control have been impounded. The dog(s) was impounded on 3/29/2016. The reason for the impoundment is that the dog(s) killed, wounded, injured or chased livestock. The impoundment is authorized by ORS 609.155. Josephine County will make a determination based on the facts of this case and may order testing of the dog(s).

You have the right to request a hearing in this matter. If you want a hearing, you must file your request for a hearing no later than fourteen (14) days from the date of this Notice by mail or delivery to:

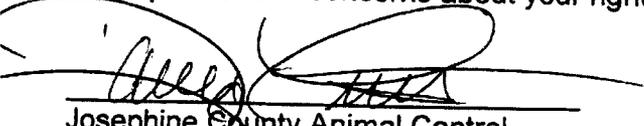

Josephine County Legal Counsel
Josephine County Courthouse, Room 152
500 N.W. Sixth Street, Dept. 13
Grants Pass, OR 97526

If you do not request a hearing, you will be conclusively presumed to have admitted the allegations against the dog(s). Those allegations are that the dog(s):

- Killed livestock;
- Wounded livestock;
- Injured livestock;
- Chased livestock.

These actions are alleged to have occurred on or about 8:30 A.M. ON 3/29/2016, at or near 1567 SPEAKER ROAD, WOLF CREEK, OR 97497 within Josephine County. The livestock involved consists of 1 LAMB AND 1 EWE, and is believed to belong to GWEN LUTHY. Josephine County will make a determination of the facts in this matter and will decide the disposition of the dog(s). If you do not request a hearing, the County will notify you of its determination and the proposed disposition of the dog(s). You may have legal rights relating to this issue. County personnel are not permitted to assist you by giving you legal advice. If you have questions or concerns about your rights, you should consult an attorney of your choice.

Date: 3/30/16

Josephine County Animal Protection & Regulation

Case # 10793 Minton on Speaker Road, Wolf Creek, Oregon.

I was called by ACO David Pitts and asked to evaluate a dead, 3 week old, 20 pound, St. Crouix- cross ewe lamb for possible cause of death, suspected dog attack and bite analysis.

There were minimal surface lesions, but upon skinning the animal, there was severe underlying tissue damage, as is usually the case. There were multiple bites and hemorrhagic damage to the neck. There was severe damage to the loins and to the abdominal walls. The right kidney was exteriorized. There were 5 to 6 cm skin punctures consistent with the 5 to 6 cm canine spread of the 2 year old rottweiler identified as 'Tyson', held in legal hold. This dog is VERY aggressive, and had to be sedated to be evaluated.

In my professional opinion, with 37 years of experience, the cause of death of the lamb was the physical trauma it suffered from the dog attack.

Gary Buckmaster, Doctor of Veterinary Medicine

CONTACT WITH RP

As RP walked ACO Pitts back to the sheep pen at this time I observed one (1) Ewe wobbling as she stood shaking profusely. She had blood on both sides of her throat and on the upper portion of her head and ears.

Closer inspection of the ewe deep punctures to her throat, ears, face were still bleeding (photo support). Also observed was one (1) dead Lamb within twenty (20') feet of her mother. Photos will show the ewe hiding under the barn floor with deep puncher wound to her right side neck area.

Additional Photo support to damage on the Lambs mother around the throat and head area.

Photo support validates what appears to be tooth punctures, on the left side and on the right side just above the hips. Bite Radius will be measured by Veterinarian Gary Buckmaster.

The lambs head also had additional wounds visible when you moved the wool to the side at the base of the skull neck area.

Please note the lambs head, neck and lower back area was soaked with smelled like dog saliva, in this Officers opinion the dog was licking the blood off of the wool of the dead lamb.

Please Note: No water was in the immediate area where the lamb lay dead only dry ground.

Dog Prints and Mr. Minton's shoe/boot soul tracks consistent with the shoes he was wearing during dog seizure were photographed

Complaint Detail

Complaint 10793

and measured with a forensic scale.

The dozens of paw prints in the soft mud matched appeared to be very close to the paw prints on the Rottweiler taken into custody. I followed the dog tracks through the pens into the pasture and along the fence by the road to a pasture gate long Speaker road. The tracks were met by the same soul tracks as the ones Anthony Minton were wearing. These tracks were through a gate and on the sheep owner's property.

Tracks along speaker road lead back to the 1325 Speaker Rd. residence where I seized the Rottweiler known as Tyson.

After I returned to RP's Ranch RP said A little after 9am the morning of the 29th of March 2016 the neighbor was leading dog from her property towards his 1325 Speaker Rd house.

Note this validates my findings of tracking the dog and the brother of dog owner walking coming and getting the dog on sheep owners property.

RP said she went to the Wolf Creek store for coffee and made some phone calls. RP, continued to say there are no other dogs that size anywhere only around her ranch for miles and miles.

The Rottweiler has been in that field two (2) times in the last week or so. That sheep pen is part of that field. 3/24 I texted a relative of the dog owner and told him to come get the Rottweiler before I shoot it.

RP said to ACO You have been more of a help than you can ever imagine in my life. I don't think I could take it if I had to "file a report online" or "leave a message". My critters mean more to me than most humans. I just don't understand why things go the way they do. ????

Thank you

ACO asked the RP if I could have the lamb as evidence to compare bite radius to seized Rottweiler bite, she said yes.

Please Note: RP added a year ago said , my Livestock Guardian Dogs Anatolian Pyrenees killed their pit bull who was attempting to harm her sheep but she had moved her dogs to the other side of her ranch to protect her calves. RP continued by saying these people don't care and let their dogs run all over the place. She also said they are not nice people, and have more than a few brushes with law enforcement.

Please note, walking the Rottweiler across a water soaked towel and measuring those prints and walking him in mud also matched using the forensics scale. An official measurement from Veterinarian Dr. Gary Buckmaster with be taken

CONTACT WITH DOG OWNER

ACO Pitts drove the 1325 Speaker road residence and made contact with the brother of the dog owner Mr. Anthony Minton. He had the big Rottweiler on a leash and appeared to be was leaving

3/29/2016

AC-DPITTS

Complaint Detail

Complaint 10793

with the dog.

He (Mr. Anthony Minton) looked up, as he looked at me I could hear him say shit! As I exited my vehicle I asked his name he said Anthony, I asked if he was aware his dog was at large on the neighbor's property and Killed, injured and chased the neighbor's sheep.

He said it wasn't my dog, I replied what would say if I told you I know you came out of your house and noticed the Rottweiler was loose again, you knew your dog had repeatedly ran to the neighbor's property many times over the past several weeks and was warned by the property owner this past week to keep your Rottweiler off of her property.

You walked to your neighbor's property and found your dog way over there (ACO pointing to the neighbors sheep pens approximately three hundred (300) yards away) in the sheep pen and walked your dog back home this morning at approximately 0845hrs.

I told Mr. Minton I followed that dog's tracks from the sheep pen where the dead lamb was and injured ewe was, I cut your tracks (pointing to his shoes with the same tread pattern on them as were in the neighbors pasture and in the dirt where he was standing) in the neighbors pasture by the gate well on her property, next to your tracks are the Rottweilers.

I told him I know he was over there this morning and killed that lamb and severely injured the lamb's mother. I asked what would you say if I have a witness that saw you walking that Rottweiler back back towards your home.

Mr. Minton looked down and then at the dog and said when I walked outside I saw he was gone again, my nephew let him out, we try to keep him in but he gets out, yeah I went over and got him I tried to get him home and leave before she came over and wanted to shoot him. I asked him, him as in the Rottweiler and her as in the owner of the sheep, he said yes.

Mr. Minton at this time immediately bent over and grabbed the dogs muzzle and said God Damn you!

I asked him if he would load the dog, he said no, and walked him towards me. The dog became very aggressive hackles up, Head dial on me growling and lunging towards me barking and snapping his jaws.

I expressed immediate concerns for my safety and grabbed my chemical spray in my left hand my radio microphone in my right. I informed Mr. Minton I could have OSP here in minutes, and if he sent that dog on me it would be assault on a peace officer, I continued by saying, I would like to ask you again Mr. Minton to rethink what you do here, I will ask one more time, would you please load the dog into the open door kennel in the back of my truck for

Complaint Detail

Complaint 10793

me.
The Nephew of Mr. Minton a Troy, seemed highly agitated and said I am going to shoot all of her cows and sheep, I expressed concern for him not to make comments such as that in front of me, He said he didn't care and when I leave he is going to shoot all of them. I asked his name he refused to give it but for some reason gave me his DOB which he said was 9/21/90
Mr. Minton at this time reluctantly complied, as he loaded the dog. He made sure the dog had enough leash lead it made me move back away from the Animal Control Vehicle as he smiled. Please note at this time I observed what appeared to be blood on the left side of the dogs nose and on the muzzle at the back part of his lip. By the time I returned to the shelter it was gone, due to his aggression I could not get close to take a photo.
As he shut the dog of the ACO vehicle, the dog seemed very aggressive and hit the door and began barking and moving around so much the ACO Vehicle moved up and down and from side to side.
I expressed to both Anthony and his nephew it's a shame this had to happen but the process is for your Brother Anthony is to meet with me, I really do not want to approach him at his work as professional courtesy.

3/29/2016 AC-DPITTS CONTACT WITH MARK MINTON , DOG OWNER

ACO PITTS RECEIVED A CALL FROM THE DOG OWNER MARK MINTON, I EXPLAINED WHAT HAPPENED AND THE FACT THAT HIS DOG GOT LOOSE AND WAS ON THE NEIGHBORS RANCH AND KILLED CHASED AND INJURED THE LAMB AND EWE. I EXPLAINED THE PROCESS OF CITATIONS FOR DOG AT LARGE, NUISANCE DOG AND BEING IN VIOLATION OF NO LICENCE. I ALSO EXPLAINED TO HIM HE WOULD HAVE THE RIGHT TO A HEARING, HE UNDERSTOOD AND SAID HE WOULD MEET WITH ME AT 0910 HRS AT THE WALMART PARKING LOT.

3/30/2016 AC-DPITTS SERVED HEARING OPTION TO DOG OWNER & CITED

ACO PITTS MADE CONTACT WITH DOG OWNER A MR. MARK MINTON AT THE WALMART PARKING LOT IN GRANTS PASS OREGON AT APPROXIMATELY 0915HRS. I HANDED HIM HIS RIGHT TO A HEARING AND A CITATION FOR THREE (3) VIOLATIONS FOR ORS' 609.100, 609.060, 609.095. MR. MINTON ASKED ME WHAT IS GOING TO HAPPEN FROM THIS POINT ON, I TOLD MR. MINTON I CAN NOT SPECULATE THE THE EVIDENCE IN MY EYES IS OVERWHELMING. MR. MINTON ALSO SAID HE HAS NO DOUBT HIS DOG DIDN'T DO IT AND HEARD THERE WERE WITNESSES / PASSERBYERS. I FURTHER SAID I CAN'T TELL YOU WHAT TO DO BUT HAVING BEEN RAISED ON A RANCH IF WE KNEW OUR DOG DID KILL A

Animal Control Officers Recommendation

My investigation has provided admission by both brothers (dog owner) the Rottweiler committed the acts.

I have brought in a large animal veterinarian Gary Buckmaster to perform, examine and conduct all tests that have confirmed beyond a doubt the Rottweiler owned by Mr. Minton is the same dog that killed the lamb and maimed/injured the Ewe, mother of the dead lamb.

My reports reflect the RP stated she warned them a week prior to remove their Rottweiler from her property near the sheep pen, Mr. Minton validates this.

Reports and Photo evidence further confirms that Minton admitted he went onto the neighbor's property to regained control of the Rottweiler after it killed her lamb and brutally injured her ewe. Shoe prints, and dog prints confirm this.

Veterinarian Gary Buckmasters report confirms the Rottweiler's paw measurements match those at the scene of the lambs death and injuries to the mother ewe.

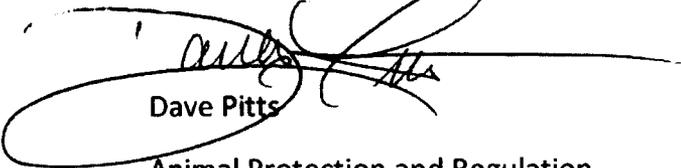

Veterinarian Gary Buckmasters report confirms the Rottweiler's Bite matches those on the lamb carcass and skin.

The aggression of this dog both at the scene and at the shelter have me concerned for the safety of nearby livestock and people living in and around the area.

Due to the ongoing issues of the Minton's NOT being unable to control and keep their dogs on their property as with the Pitbull incident previously the husky dog they now have who has been reported at large by neighbors and now this dog.

Having been warned the week prior with regards to this dog at large on the neighbor's ranch and still unable to control the Rottweiler, if asked what my recommendation would be for the fate of this dog it would be as follows;

It is ill responsible dog owners who allow their animals to run after being warned their animal is a threat. At this time I would not want to see this animal put to sleep but possibly become property of the Josephine county animal shelter. There he could be temperament tested and transferred out of Josephine County to be adopted and placed in another environment with the understanding this animal harms Livestock.
