What we can do every day:

- Recycling Packaging materials – if you get a package with air pockets, bubbles, or peanuts, save them for the next time you need to send a package. Boxes can also be reused.
- Swap program – if you have to get rid of something in your office, a desk, a stacking folder system, or speakers for your computer, offer them to other people within the organization instead of just putting them in a closet.
- Paper – reuse paper by using the backs of used paper for scratch pads. If you are printing a large book – print it two sided.
- Use email instead of inter-office mail.
- Mail – Get off unwanted mailing lists! This way you will not receive junk mail!
- FAX – Use a “fax stickie” instead of a cover sheet.
- Preview BEFORE printing
