Treasurer’s Statements

- Commercial bank demand deposit accounts are non-interest bearing. Interest rates on investment accounts are shown in Attachment A. Other bank account information is shown elsewhere in this report.
- All Treasury investments are permitted by the Josephine County Investment Policy, and are within the percentage requirements of the Policy. The Policy has no restrictions on investments in commercial bank demand and commercial money market accounts. The Oregon Short Term Fund Board approved the Policy in June 2007; the Board of Commissioners adopted the Policy in 2007 and re-adopted it each year since.
- ORS Chapter 295 governs the collateralization of Oregon public funds and provides the statutory requirements for the Public Funds Collateralization Program. Bank depositories are required to pledge collateral against any public funds deposits in excess of deposit insurance amounts. This provides additional protection for public funds in the event of a bank loss. According to the Oregon State Treasurer, ORS 295 creates a shared liability structure for participating bank depositories, better protecting public funds though still not guaranteeing that all funds are 100% protected. It is the opinion of the Josephine County Treasurer, and other county treasurers, that the collateralization program essentially guarantees 100% of the balances, in excess of FDIC coverage, of each compliant public depositor. As of September 30, 2015, and as of the date of this report, all county deposits comply with the requirements of the Josephine County Investment Policy and ORS chapters 295 and 294.
- A “third party” custodial agreement for investment safekeeping was completed in June, 2007. As of September 30, 2015, all securities were held by US Bank Institutional Trust & Custody. All investment transactions, except for direct purchase of bank TCDs, are cleared through this safekeeping arrangement.
- On September 30th the Treasurer's investment maturities extend to August 2018. It is difficult to purchase allowable short term securities which are competitive with the Local Government Investment Pool. Details of investments held at September 30, 2015 are shown in Attachment A.
- The Josephine County Investment Policy approved by the Oregon Short Term Fund Board, and re-adopted February 18th, 2015 by the Board of Commissioners, measures performance of the County’s investment portfolio against the performance of the Oregon Local Government Investment Pool and the 90 day Treasury bill rate. The graph shown below compares the performance of the “Treasurer's Pool” with the LGIP and the 90 day US Treasury Bill, along with the returns on all Treasury investments. Historically the LGIP yield is higher than the Treasurer's Pool in a rising interest rate environment and lower when rates are dropping. These yields are calculated and presented using the Bond Equivalent Yield method (i.e. annual percentage return calculated over 365 days vs. 360 days).

PUBLIC FUNDS COLLATERALIZATION PROGRAM (Effective July 1, 2008)

ORS Chapter 295 governs the collateralization of Oregon public funds and provides the statutory requirements for the Public Funds Collateralization Program. Bank depositories are required to pledge collateral against any public funds deposits in excess of deposit insurance amounts. This provides additional protection for public funds in the event of a bank loss.

Banks are required to report quarterly to the Oregon State Treasury, providing quarter-end public funds balances in excess of the FDIC limits, net worth, and FDIC capitalization information.

Public officials are required to verify that deposit accounts in excess of deposit insurance limits are only maintained at financial institutions included on the list of qualified depositories found on the Oregon State Treasurer's web site at:

<http://www.ost.state.or.us/divisions/finance/collateral/qualifieddepositoriespublicfunds.htm>

On September 30, 2015, and at the date of this report, all reporting requirements of ORS 295 are satisfied.
