

June 30, 2009

Mr. Alex Grossi  
Airports Director  
Josephine County Dept. of Airports  
1441 Brookside Boulevard  
Grants Pass, OR 97526

Dear Mr. Grossi:

Airport Master Plan Update  
Illinois Valley Airport  
FAA Review Comments on Draft Chapters One and Two  
AIP Project No. 3-41-0011-03

I have reviewed the Inventory and Aeronautical Activity Forecasts working papers submitted by the consultants for the Airport Layout Plan Update project for Illinois Valley Airport. The report is generally well-done. My only specific review comments at this time are as follows:

- a. In general, aviation activity forecasts recommended appear to be reasonable. Your consultant's recommended based aircraft forecasts in Table 3H, and operations forecasts in Table 3N are approved.
- b. We concur that the airport reference code (ARC) B-I Small is appropriate to establish design standards for this airport.

If we can be of further assistance, please call at (425)-227-2641.  
Sincerely,

Paul Holmquist  
Airports Program Specialist
